

POETRY HISTORY: AUTHOR, TITLE, PLACE, AND DATE

PW = Poetry Weekend
AS = Asilomar

Starting date 1974
up to 2017 AS

AUTHOR TABLE:

Sort order: Cols A, C, D, E, all :

After the initial sort in order of author, it is best not to sort this table again. Additions and edits should, in general, be performed on the first table only, 'Chronol order'. This then serves as the source table for the 'Author' and the 'Problem' tables. After copying and pasting of the source table, it can then be given its one-time sort. The column sort order and direction are given above. You will need to edit the "up to" date above to reflect the new information. Also edit the page heading, changing "Date" to "Author"

The 'titling' and 'subtitling' rows sort to the top in an 'Author' sort. They are therefore easy to delete. If you like, you can leave them in so that you can see what happens to them in the sort. Best to remove them before distributing list.

To select rows for sorting, click on top LH cell (A2), then go to end of table
